

ENGINEERING & CONSTRUCTION RISK INSTITUTE

Document number: ECRI-CM-001 (DESC)	Criteria for a Change Management Process	Page: 1 of 8
Revised: 1 September 2009		

Purpose: The purpose of this document is to provide for the E & C Company a framework of best practices against which the company can measure their change management process. Key elements of the process addressed are:

- Project Change Definition
- Change Management Practices
- Change Management Process and Procedures
- Owner and Contractor Responsibilities

Introduction: A robust Change Management Process is a key component of all E & C companies' methods and systems. No company's risk management process can be considered to be best practice unless that company has in place a corresponding change management process and the two processes interrelate.
