

# ENGINEERING & CONSTRUCTION RISK INSTITUTE

Document number: <b>ECRI-RM-008 (DESC)</b>	<b>Improving Project Team Risk Awareness</b>	Page: 1 of 1
Issued: 7 July 2010		

**Purpose:** To provide guidelines and recommendations to establish and/or improve risk awareness within an E&C company to further the objective of promoting a risk management culture, in a broad sense, across all levels of the organization and at the project level. This Practice concentrates on developing risk awareness at the project level.

**Introduction:** Ineffective risk management continues to pose a significant threat to the achievement of project objectives. Therefore the successful operation of an E&C company depends on having a management process that provides for risk awareness and understanding within the project team. In order to do this the project team must also have an understanding of the organizations strategic approach to risk management.
